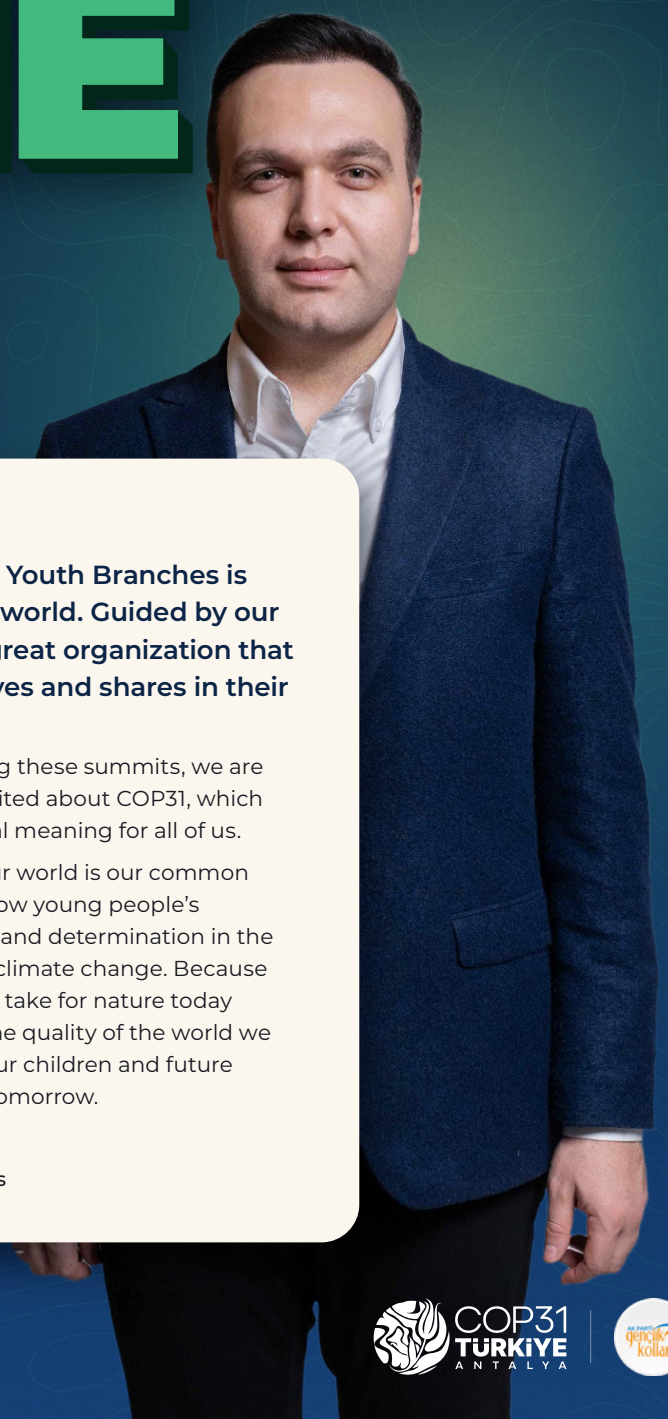
1 MILLION YOUTH, ONE COMMON HOME



AK PARTY | YOUTH BRANCHES

With more than one million members, AK Party Youth Branches is the largest youth movement in Türkiye and the world. Guided by our motto "By Your Side, Every Moment," we are a great organization that is present in every area of our young people's lives and shares in their dreams.

Under the leadership of our President, Recep Tayyip Erdoğan, we are setting the seal of youth on our era as a self-confident generation that guides our country's present and shapes its future. Under the pioneering leadership of our global leader, President Recep Tayyip Erdoğan, our country is hosting three major international summits this year: the NATO Summit, the Organization of Turkic States (OTS) Summit and COP31. Among these summits, we are especially excited about COP31, which holds a special meaning for all of us.

Declaring "Our world is our common home," we show young people's responsibility and determination in the fight against climate change. Because every step we take for nature today determines the quality of the world we will leave to our children and future generations tomorrow.

YOUTH AT THE DECISION-MAKING TABLE

02 SECTION

Our Chairman and President, Recep Tayyip Erdoğan, sees youth as the greatest force shaping Türkiye's present and future, and shows his trust in young people at every opportunity. One of the most concrete steps of this vision, which enables young people to play a more active role in politics and public life, was lowering the minimum age to run for office to 18 in 2017.

By giving young people responsibility in Parliament, as Deputy Chairs of our party, in municipalities and at every level of our organization, our President has made youth an active agent of politics and brought them to the center of decision-making. Strong indicators of this approach:

The youth raised with this understanding are a generation of self-confidence: they trust their ideas, stand behind their ambitions and do not shy away from taking responsibility.

This vision is the most precious legacy of a strong leadership approach that trusts young people and helps them believe in their own potential.
